

[illegible][illegible]

The image shows a smartphone screen with the 'SmartThings' app interface. The screen is divided into several sections, each with a title and a set of controls. The top section is titled '조명' (Lighting) and includes a '제어' (Control) toggle switch and a slider for '색온도' (Color Temperature) ranging from 4500K to 5000K. Below this is a '밝기' (Brightness) slider ranging from 0% to 80%. The second section is titled '전도, 배양' (Power, Cultivation) and includes a '열풍' (Heating) toggle switch and a '지연률' (Delay Rate) slider. The third section is titled '가전' (Appliances) and includes a '가전' (Appliances) toggle switch and a '가전' (Appliances) slider. The bottom section is titled '환경' (Environment) and includes a '환경' (Environment) toggle switch and a '환경' (Environment) slider. The interface is in Korean and features a dark theme.
